

Items in red are necessary. Students may also decide to cage nests because of predators.
 Alternative nest site locations should adhere to the guidelines listed in the PhotoDocumentary.
 Number of eggs laid should be reasonable (between 100 and 120).

Sullivan's Island, South Carolina
 2003 Nesting Season

nest number	original location	management decision	reason(s)	alternative location	no. of eggs laid
1	T, 58				unknown
2	S, 67	relocate	behind dune line		
3	R, 75	relocate	on the high tide line		
4	T, 72	relocate	erosional area		
5	T, 63	relocate for storm	high storm surge		
6	T, 56	relocate for storm	high storm surge		
7	T, 73	relocate for storm	high storm surge		
8	T, 66	relocate for storm	high storm surge		
9	U, 68	relocate for storm	high storm surge		
10	S, 53	relocate for storm	high storm surge
