

Polluted Water is Turtle Slaughter

- **Grocery bags look like jellyfish and turtles suffocate when they try to eat them.**
- **Soda rings will cause turtles to choke if they get caught on their necks.**
- **Oil spills kill all of the turtles' prey causing the turtles to starve.**
- **CO2 breaks down the ozone layer causing global warming in effect, forming only female turtles.**

For more information,

Contact the Anti-pollution for turtles society at 123-4567 or visit www.Anti-pollution/turtles.com

Meetings are held at Folly Beach on Friday.

Help Wanted:

- **In need of cleaners**
- **Trash Cans**
- **Turtle Observers**
