The Seven Essential Principles

This year we are adding the opportunity to show how your presentation fulfills science teaching standards for K-12. Please make your presentation more valuable to your audience by letting us know what goal you are helping them address. For detailed information, please visit <http://www.coexploration.org/oceanliteracy> and download the brochure and find out the National Science Education Standards addressed by the following seven essential principles

- 1 The earth has one big ocean with many features.
- 2 The ocean and life in the ocean shape the features of the earth.
- 3 The ocean is a major influence on weather and climate.
- 4 The ocean makes Earth habitable.
- 5 The ocean supports a great diversity of life and ecosystems.
- 6 The ocean and humans are interconnected.
- 7 The ocean is largely unexplored.
